Details:

- The course will be 10 fences with a starting height of 1.20m. Width of spread fences will be determined by the course designer.
- The event will be a maximum of 5 rounds and a fence may only be raised a total of 6 times with the incremental height adjustment set at 5cm. There will be start and finish flags, but the competition will not be timed, unless and until a jump off.
- The draw order will be randomly generated with riders picking draw numbers out of a hat prior to walking the course. The draw will remain the same throughout the event.
- Each horse and rider combination will tackle the course and at the completion of each their round, before leaving the arena, he/she will choose a fence from the course that will be increased in height by 5cm and width (if applicable) by 10cm.
- Each horse and rider combination that incurs any faults will be immediately retired from the competition. The combination will leave the arena without taking any further part in the competition and will forfeit the right to have a fence raised.
- The winner will be the last combination to jump clear.
- If two or more final riders are eliminated over the same height and fence, they will be placed equal first. Otherwise the horse that jumps the most fences in the round will be the winner.
- If two or more riders jump a clear round in the 5th round the winner will be decided in a jump off, against the clock over a shortened course.
